**Public Input:**

Gibe Townsends wants to if there has been talk about the sewer system, and why the road can't be changed to 66 foot road instead of an 80 foot road. He was explained that it is a class A road and cannot be changed. He also wants to have County Line survey to figure out where the center of road is at. Karl Wilkins was asked to add this to his Building, Street, and Grounds agenda.

Mollie Wilkins talked about the pavilion rental being free for community events, she says she feels that if the community is invited then it should be classified as a community event. She also wanted to say that the council needs to work better as a team for the community not as friends.
