

## Water Committee Minutes

**February 7, 2018**

Meeting opened at 6:30 PM

Tim McKay, Broc Reaser, John Raymond, Russ Yarger were in attendance.

Received results of Water Samples LH58296, and Sample LH58297

Sample LH58296 was a partial chemical test with all results below action levels.

Sample LH58297 was given a "not detected" result for coliform organisms.

DPW has provided the committee with a list of needed water meter repairs which totals 9 in all. He will continue to make repairs as his schedule allows.

Discussion of a water main replacement has begun; the proposed site is on East Street and the repair would include increasing the size of the water main. Vent repair on the water tower was also discussed briefly.

Meeting was adjourned at 7 PM
